

Maintenance Platform and Walkway

Enable your crews to work safer while performing their tasks! Upgrade your cooling tower to include a maintenance platform and walkway and enhance the safety of your work environment.

The permanent maintenance platform and walkway is designed to OSHA standards and includes:

- Corrosion-resistant fiberglass grating walking surfaces and fiberglass guardrails
- Open grating to minimize impact to air flow
- Handrail, knee rail and toe board per OSHA specifications
- Access to the gearbox, fan and driveshaft for routine and preventive maintenance

Benefits:

- Promotes a safer work environment by minimizing potential risk of a safety incident
- Enables crews to perform tasks in less time; saves precious maintenance dollars
- Easier access encourages regular inspection and maintenance, extending equipment life

To locate your Marley representative, call 1-800-4Marley or visit spxcooling.com/relocator.
